Internet and E-Mail Access for Students

As part of the school's ICT programme we offer students supervised access to the Internet. Before the school allows students to use the Internet and e-mail, we require all students to obtain parental permission and both they and you must sign and return the attached form as evidence of your approval and their acceptance of the school rules on this matter.

Students are issued with a unique username and password when they enter the school. The code gives the student access to the computer system, it is their personal code and should not be disclosed to anyone else.

During school, teachers will guide students towards appropriate materials on the Internet. Although the school provides filtered and secure Internet access, parents and carers should be warned that some students may find ways to access material which is inaccurate, defamatory, illegal or potentially offensive to some people. Students who misuse or abuse Internet or e-mail access at school will face disciplinary action and may lose their right to Internet access for a fixed term.

Shirley High School operates simple common sense rules, and students understand the consequences of them attempting to access unsuitable material or to use the facilities inappropriately. This includes access rights taken away, accounts suspended and in certain cases completely withdrawn. In the case of future contravention of these common sense rules the school reserves the right to suspend or withdraw completely.

Please read through the attached document carefully with your son / daughter and then complete the **Internet and Electronic Mail User Agreement and Parental Permission Form** in your pack and return it to school with all other forms.
