

Our Vision:

To develop aspirational learners who strive for excellence academically, creatively and culturally, benefitting from a wide range of opportunities led by inspirational educators.

**Psychology Curriculum
Overview Mapping**

Year Group	Curriculum Intention	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Year 12	Our study of Psychology in Year 12 builds their knowledge of psychological concepts and theories that explain human behaviour. Students will obtain the ability to analyse and evaluate a variety of research. Learners will gain insight into different scientific processes and techniques used when formulating scientific research. Students will also understand the importance of psychological research and its impact on society.	Approaches to Psychology / Research methods	Research methods / Psychopathology	Social influence / memory	Memory / attachment	Attachment	Biopsychology
Year 13	The Aspiring Psychologist -Our study of Psychology in year 13 shines further light on our own behaviour and the behaviour of others. It brings about empathy, tolerance and an appreciation of how interconnected and complex our lives as humans have become and how psychologists can help others untangle these complications in their own lives.	Issues & debates	Relationships	Schizophrenia	Aggression	Revision	Final examination
